-----

Shop trusted brands & huge inventory of LED bulbs, fixtures, drivers, fans & electrical. Over 40 years in business.

The Enphase Solar Micro Inverter is designed to optimize the power output of each individual solar panel, ensuring that you get the most out of your solar energy system.

The Isolite MPS is a 20 - 55-Watt micro-inverter ideal for powering incandescent, fluorescent, and LED fixtures. The true sinusoidal AC pulse width modulated (PWM) design provides clean 60Hz ...

The Micro Power System (MPS) is designed to provide sinusoidal AC Emergency power to connected lights. Surface, recessed or ceiling T-Grid mount models are designed for easy installation either on ...

The Hinen micro inverter is suitable for systems with diverse panel orientations and partial shading, ensuring optimal energy production and ease of maintenance, with highly efficient, comes with ...

Inverters for emergency lighting providing backup power to LED and fluorescent lights when power goes out.

Bodine's ELI-S-20 is a 20W or 25W Emergency Backup Micro Inverter powers LED, fluorescent and incandescent for up to 90 minutes with load up to 25W of total load

Studies have shown that microinverter systems can produce 5-25% more energy than string inverter systems in partially shaded conditions, depending on the specific installation and ...

For powering incandescent, fluorescent, and LED fixtures True sinusoidal AC pulse width modulated (PWM) design provides clean 60Hz emergency output Universal 120/277VAC, 60Hz input/output ...

Our microinverter technology individually monitors and maximizes power generation for each module in the array, boosting system efficiency by up to 20 percent. Each APsystems microinverter handles ...
