What are outdoor Telecom cabinets?

Our outdoor telecom cabinets are designed to protect your sensitive network equipment from harsh environments where equipment may be exposed to dust or water. For added protection, there is a water and dust proof polyurethane door joint strip.

Where are Telecom cabinets made?

In our own 10,000 sq.m. production facilities in Ukraine, we produce outdoor telecom cabinets and shelters, air conditioners, and heat exchangers for cabinets, freecooling for shelters, electrical enclosures, and remote monitoring systems for telecom networks.

How is a telecom cabinet installed?

Installation: The cabinet is installed on-site, typically on a concrete pad or mounting base. All telecom equipment is configured and connected to the appropriate power sources and communication lines.
