What is A 500KW Megatron battery storage system?

500kW MEGATRON - 20 foot Containerized Commercial Battery Energy Storage System designed to for On-Grid and Renewable Energy Projects.

How does a lithium battery energy storage system work?

When the power grid is out of power, the lithium battery energy storage system can act as an independent inverter power supply to provide AC power to important loads, thereby ensuring the needs of users. In areas with high electricity costs, it is also possible to build a large energy storage system solely to sell electricity.

What is a 500 kW battery system?

A 500 kw battery system has numerous utilization possibilities across many industries. These applications include: Often, commercial facilities have high energy demands during peak hours. With a 500KWh battery, these facilities can store energy during off-peak hours when electricity rates are lower.

Why do commercial facilities need a 500kWh battery?

Often, commercial facilities have high energy demands during peak hours. With a 500KWh battery, these facilities can store energy during off-peak hours when electricity rates are lower. Then, the battery discharges during peak hours to minimize demand charges and operational costs.
