What are the best electric vehicle charging stations?

Lectron, ChargePoint and Massimo are among the most popular Electric Vehicle Charging Station brands. While those brands are the most popular overall, you will also find a great assortment from Phivve, Wildaven and Battery Tender. How much does a Electric Vehicle Charging Station cost?

Do electric vehicles have a charging unit?

Most electric vehicles come standard with a portable charging unit that can be used for daily charging. However, many owners prefer to leave that charger in their vehicle, just in case they find themselves needing to plug in on the road, and aren't within driving range of a public charger.

How much does EV charging cost?

Trust us, you'll want to be charging at home as much as possible. This has two significant benefits: Charging can be accomplished when the vehicle is otherwise parked, and home charging is substantially cheaper (roughly one-third the cost) of DC fast-charging. On average, EV charging equipment will have an up-front cost of between \$400 and \$700.

Where can I find a good electric vehicle charger?

At Lowe's, you can find a wide assortment of electric vehicle chargers from trusted brands, including Lectron EV chargers and ChargePoint chargers. Consider the specific features you want in your charger, whether you need a wall-mountable unit, a Wi-Fi-enabled charger or a model that works with all EVs using a J1772 charging connector.
