Sustainable Storage with Compressed Air (Caes), a pioneering proposal in Brazil, aims to manage load fluctuations in the grid and support the integration of renewable energies.

Brazil's National Electric Energy Agency (ANEEL) approved the first large-scale battery energy storage project in the Brazilian transmission system.

Unicamp, in S#227;o Paulo, Brazil, inaugurated the CampusGrid solar-plus-storage project on its Bar#227;o Geraldo campus in Campinas on Nov. 21, 2024. The microgrid combines a 565 kWp ...

The 33.5MW/67MWh large-scale energy storage project, which is also the largest battery storage project in Brazil, with PCS integrated solution provided by Kehua Tech, has been officially put into operation.

Brazil's largest microgrid has gone online at the State University of Campinas (Unicamp). The CampusGrid project combines a 565 kW solar system with a 1 MW high-capacity battery energy...

ISO CTEEP claimed it as the first large-scale battery energy storage system (BESS) on Brazil's transmission grid. The project required a total US\$27 million investment. The transmission ...

Analysis, reports, news and interviews about your industry in English, Spanish and Portuguese. The move reflects the need to increase the reliability of supply in remote locations, ...

Brazilian mining giant Vale is partnering with Siemens and MicroPower Comerc on a 5MW/10MWh lithium-ion battery system at a large port facility in Rio de Janeiro. Featuring the first ...

Brazil launches a 2026 energy storage auction to boost large-scale battery projects and define storage's role in its evolving power market.

Ever wondered how Brazil plans to keep its lights on while ditching fossil fuels? Enter the Brazil Park Energy

Brazil s largest energy storage project

Storage Project 2025, a game-changing initiative that"s making waves in the ...
