Cerro Dominador project is a 210MW hybrid concentrated solar power (CSP) and photovoltaic (PV) power complex under construction in Chile.

It consists of two interconnected systems: a photovoltaic power plant, with an installed capacity of 100 megawatts (MW), and a concentrated solar power plant, with an installed capacity of 110 MW, the ...

Aerial view of Cerro Dominador, the first concentrated solar power plant in Latin America, in Antofagasta, Chile. The imposing 240-meter construction is one of the pillars of the ambitious ...

Thanks to IKI funding the concentrated solar power (CSP) plant Cerro Dominador in Chile's Atacama Desert started operations in early June this year. Despite its many natural ...

Located 60 kilometers from Calama, in one of the sunniest spots on Earth, Cerro Dominador harnesses solar power through 10,600 massive mirrors (heliostats), each covering 140 ...

Latin America's first, utility-scale concentrating solar power (CSP)-thermal energy storage project in Chile will be completed in 2019's second half, and its associated 17 hours of molten salt thermal ...

Located 60 kilometers from Calama, in one of the sunniest spots on Earth, Cerro Dominador harnesses solar power through 10,600 ...

Concentrating solar power (CSP) projects in Chile are listed below alphabetical by project name. You can browse a project profile by clicking on the project name. You can also access information on ...

The site is in the commune of Mar#237;a Elena in the Antofagasta Region of Chile, about 24 kilometers west-northwest of Sierra Gorda. The associated 100 MW PV project on the site began operation in 2018.

The Cerro Dominador project [15] will see the construction and operation of a 110 MW concentrated solar

Chilean concentrated solar power plant

power plant with storage in the northern Chilean region of Antofagasta, located in the Atacama ...

The first two phases of Oasis de Atacama, the largest solar power and energy storage project in Latin America, have come on stream in Chile's Antofagasta Region.
