How much does a switchboard upgrade cost in Melbourne?

Expect to pay between \$5,000 and \$8,000 for a standard 3-phase upgrade in Melbourne. Larger homes or trickier installs may cost more. Connection fees, underground cabling, and switchboard replacements are priced separately. Upgrading your supply almost always means upgrading your switchboard too.

How much does a 3-phase power supply cost in Melbourne?

...then a 3-phase supply is probably the way to go. It delivers more consistent power and handles large loads with ease. Expect to pay between \$5,000 and \$8,000 for a standard 3-phase upgrade in Melbourne. Larger homes or trickier installs may cost more. Connection fees, underground cabling, and switchboard replacements are priced separately.

Can EV chargers overload a switchboard in Melbourne?

Melbourne homeowners are jumping on solar, and for good reason. But adding solar panels, battery storage, or an EV charger installation can overload your old switchboard if it's not upgraded first. Electric vehicle chargers usually need a dedicated 240V circuit.
