Are telecommunications companies selling their towers to dedicated tower companies?

Major telecommunications firms, such as AT&T, Verizon, and T-Mobile, not only provide mobile services but also own and operate numerous towers. However, the telecom landscape has witnessed a significant trend where these operators increasingly sell their towers to dedicated tower companies to focus on their core business of service delivery.

What is an LTE base station system (eNodeB)?

An LTE Base Station System (commonly referred to as eNodeB) is a critical component of 4G LTE mobile networks that facilitates wireless communication between user devices and the operator's core network.

How much is the Global LTE base station system market worth?
