Housed in a weather-resistant IP55 cabinet, it combines a 100kWh LiFePO4 battery pack with 50kW charge/discharge capability, supporting real-time monitoring and remote control via Ethernet, RS485, ...

The iCON 100kW 215kWh Battery Storage System is a fully integrated, on or off grid battery solution that has liquid cooled battery storage (215kWh), inverter (100kW), temperature control and fire safety ...

The MEG 100kW x 215kWh Cabinet is engineered as a modular energy storage building block, ideal for commercial facilities, microgrids, and community-scale projects.

CE, BV, ISO certified for reliable performance. Hybrid Solar Energy Management: Integrates solar power generation, battery storage (CATL 100KWh), and grid connectivity for seamless energy distribution.

AZE's All-in-One Energy Storage Cabinet & BESS Cabinets offer modular, scalable, and safe energy storage solutions. Featuring lithium-ion batteries, smart BMS, and thermal management, they're ideal ...

The cabinet modular data center provides an integrated solution for power distribution, cooling management, fire safety, and structured cabling. It is designed to offer safety, reliability, and ...

100KWh LFP/SSB 3.2V/280Ah battery with over 8000 cycles at 70% DOD, ensuring stable long-term energy supply for commercial and industrial needs. IP54 protection + C4/C5 anti-corrosion grade, ...

Smart Modular Cabinet - Customized Cooling/Power + Remote Management for Telecom Base Stations

All-in-one 100kWh lithium battery energy storage cabinet system developed for demand regulation, industrial and commercial energy storage.

Perfect for factories, data centers, EV charging stations, and microgrids, this plug-and-play ESS cabinet

Data center cabinet for IoT base stations 100kWh

provides peak shaving, backup power, and renewable energy optimization --all in a compact, easy ...
