The Dominican Republic's commitment to solar energy in public infrastructure has demonstrated remarkable success, with numerous projects showcasing the viability and benefits of ...

With an expected cash inflow of \$102 million from the deal, including \$82 million projected for 2025, this move underscores DOMINION's dedication to advancing a sustainable energy future. ...

The US\$150m complex features three smaller solar farms capable of generating a combined 286GWh per annum. It is the largest operating solar project in the Caribbean. Astronergy ...

ACCIONA Energía partners with Grupo País to develop the 63.35 MW Pedro Corto solar project in the Dominican Republic, powering 78,000 homes and expanding its renewable portfolio.

In Greater Santo Domingo, the five ongoing projects represent an investment of US\$674.2 million. Four of these will harness solar energy, while one significant natural gas plant, located in ...

The Dominican Republic's national energy commission has approved a new 83.4-MW/101.6-MWp solar project with storage, as well as inaugurated a 58.48-MW/64.70-MWp solar ...

The project helps Dominican Republic to reach its goal until 2025, the year in which they expect 25% of the electricity consumed by the country to come from renewable energies, and has generated more ...

The installed renewable energy capacity in the Dominican Republic rose to 1,126.25 MW at the end of 2023 from 555.5 MW in 2020. There are currently over 1,300 MW of solar photovoltaic ...

The project involves setting up a 5.3 km transmission line to connect the solar plant to the Maranatha 69 kV substation and a 500m² solar hybrid greenhouse to demonstrate solar power's role in sustainable ...

Dominican solar Module Investment Project

ACCIONA Energia announced today the development of a new photovoltaic project in the Dominican Republic, the Pedro Corto solar plant, in collaboration with Grupo Pasa.
