How much structural stress can modern energy storage cabinets endure during seismic events? As global deployments surge 78% year-over-year (Wood Mackenzie Q2 2023), earthquake resilience ...

Our storage systems feature seismic-resistant, moment-resisting reinforcements, offering the strength and flexibility to evenly distribute seismic forces and absorb energy without collapsing.

Discover our high-efficiency, modular battery systems with zero capacity loss and rapid multi-cabinet response. Ideal for industrial, commercial, and emergency applications, our solutions offer remote ...

Sagaing earthquake in Myanmar On 28 March 2025, two powerful earthquakes struck central Myanmar's Sagaing Region near Mandalay. The first, with a magnitude of 7.7, occurred at ...

We offer indoor and outdoor solutions based on different climatic conditions, ensuring the durability and reliability of the enclosures. With an integrated vertical manufacturing approach, we ensure efficient ...

Working closely with the government and partners, WHO is supporting to respond to the urgent health needs of the affected populationA 6.4 magnitude earthquake hit Nepal's Western ...

The purpose of this study is to investigate the potential use of solar energy within an oil refinery to reduce its fossil fuel consumption and greenhouse gas emissions.

Our team specializes in designing earthquake-resistant solar-plus-storage systems tailored to your geographical risks and energy needs. Whether you're safeguarding a home, ...

This energy storage cabinet supports both on-grid and off-grid configurations, with harmonic distortion $\leq 3\%$.

Earthquake-resistant photovoltaic integrated energy storage cabinet for oil platforms

It complies with international standards such as IEC/EN62109, IEC/EN62477, providing reliable ...

A community struggling, yet unbroken & WHO's people centered response The hardships these individuals face reflect the wider struggles of millions displaced by the earthquake. Safe water, ...

On 28 March 2025, two powerful earthquakes struck central Myanmar's Sagaing Region near Mandalay. The first, with a magnitude of 7.7, occurred at 12:50 p.m. local time, followed by a ...

On 6 February 2023, a series of large earthquakes hit southern Türkiye and northern Syria, followed by hundreds of aftershocks. Thousands of lives were lost in the initial earthquakes and thousands more ...
