-----  
Which cars are not eligible for the EV incentive?

Premium cars, such as the Tesla Model S and BMW i8, are not eligible to the incentive because there is a cap of EUR60,000 (US\$67,800) for the purchase price. Only electric vehicles purchased after 18 May 2016 are eligible for the bonus and the owner must keep the new electric car at least nine months. The same rule applies for leasing.

What incentives are available for electric cars in Armenia?

The incentives consist of tax reductions and exemptions, as well as of bonus payments for buyers of PEVs, hybrid vehicles, and some alternative fuel vehicles. Armenia advanced an initiative to exempt VAT taxes from the import of electric cars.

What incentives are available for electric vehicles?

These incentives mainly take the form of purchase rebates, tax exemptions and tax credits, and additional perks that range from access to bus lanes to waivers on fees (charging, parking, tolls, etc.). The amount of the financial incentives may depend on vehicle battery size or all-electric range. Often hybrid electric vehicles are included.

How much does the electric car program cost?

The program is aimed to promote the sale of 400,000 electric vehicles. The cost of the purchase incentive is shared equally between the government and automakers. Electric car buyers get a EUR4,000 (US\$4,520) discount while buyers of plug-in hybrid vehicles get a discount of EUR3,000 (US\$3,390).
