Corsica Sole and Evecon are planning the construction of two battery storage power plants with a total capacity of 400 MWh in Estonia. They are intended to help stabilize the Baltic ...

KIISA, ESTONIA - February 3, 2026 - The Baltic Storage Platform (BSP) - a joint venture between Baltics leading renewable energy developer Evecon, French independent solar power ...

Estonia's Energiasalv has secured EUR 11 million (USD 12m) in additional financing for its 500-MW/6-GWh pumped hydro energy storage project, including strategic investments from Alexela, Sunly, ...

Recently, the country welcomed its largest solar park, capable of powering 35,000 households. Now another such step is the development of two battery energy storage systems in Harju County, North ...

Actually, Estonia's grid isn't just aging; it's fundamentally mismatched for decentralized renewables. The Tallinn project's real innovation lies in its modular BESS (Battery Energy Storage System) design ...

Baltic Storage Platform, a joint venture (JV), has broken ground on two new 200MW/400MWh battery energy storage systems (BESS) in Estonia.

Baltic Storage Platform has inaugurated the 200MWh Hertz 1 battery energy storage system in Kiisa, developed through a joint venture between Evecon, Corsica Sole and Mirova.

Baltic Storage Platform is a joint venture between Evecon, Corsica Sole and Mirova, developing two battery storage parks in Estonia with a combined capacity of 400 MWh.

Estonian state-owned energy company Eesti Energia has inaugurated the nation's largest battery energy

Estonia energy storage power station solar energy storage cabinet lithium battery

storage facility at the Auvere industrial complex in Ida-Viru County.

Estonia is building the largest battery park in continental Europe, boosting energy security and supporting the transition to renewables.
