Where is Estonia's largest battery storage facility located?

The flagship battery storage project commenced operations on February 1, only days before cutting ties with the Russian power grid. Estonian state-owned energy company Eesti Energia has inaugurated the nation's largest battery energy storage facility at the Auvere industrial complex in Ida-Viru County.

Who delivered the Eesti Energia project?

The project was delivered by energy solutions system integrator Diotech Group, which won Eesti Energia's international tender in 2023. It was supplied with battery technology from LG Energy Solution. Installation and connection work were carried out by Enefit Solutions.

What is Estonia's Auvere Bess project?

Estonia's Auvere BESS project is designed to participate in both the electricity exchange and other energy markets to ensure the security of electricity supply. According to Eesti Energia board member Kristjan Kuhi, the battery is able to respond very effectively to fluctuations in the power system.

The firm behind the energy storage project is the Estonian startup Zero Terrain, and they are not shy about the touting the supply chain advantages of hydropower over other systems.

Huijue Group offers industrial and commercial energy storage, PV-BESS -EV Charging, Off-grid / On-grid Microgrid, telecom site solutions, and home solar energy storage, ensuring ...

Eselcom is a manufacturer of energy storage systems for home and commercial use. We develop energy storage solutions in the alternative energy sector.

LZY Energy provides efficient and reliable energy management solutions for I& C users through leading technology and careful design. We are committed to promoting energy transformation and ...

Estonia's push toward carbon neutrality by 2050 has accelerated demand for modern energy storage solutions. With aging battery systems and growing renewable integration, the Estonia Energy ...
