Who is island solar Fiji?

Island Solar Fiji is your trusted installer of quality solar systems and battery storage. We work with you to improve your power reliability and save the planet.

What are the different types of energy solutions in Fiji?

Delivering secure, cost-effective hybrid and utility grade power solutions, for today and the future. Our specialities in Fiji include Solar Energy, Renewable Energy, Hybrid Energy, Distributed Generation, Energy Storage, Off-Grid Energy, Remote Communities, HV, Substations, Grid Connections, Battery Energy Storage Systems (BESS), and Microgrid.

Why do businesses use solar energy in Fiji?

With on-site solar energy generation in Fiji, businesses can generate their own electricity and become less vulnerable to power outages, grid disruptions, and energy supply constraints. Many organisations in Fiji switch to solar energy as part of their commitment to sustainability and reducing their carbon footprint.

How much does a solar system cost in Fiji?

o Fiji: On average, a residential solar system costs around \$15,000 without a battery and about \$25,000 with a battery. What does a home battery do? When your solar system generates more power than your home is using, the extra energy is first stored in your home battery.

We make solar the clear choice across Fiji, and the Pacific Islands delivering sustainable energy solutions for homes and businesses, from design to installation and ongoing support.
