Thanks to its cool climate, abundant land, and solar radiation levels on par with northern Germany, Finland is unexpectedly well-suited to solar - especially when paired with wind, which peaks in winter ...

Solar panels can produce a lot of the electricity you need, from spring until autumn. We offer solar panel packages for your home as a turnkey delivery.

EPV Energy's new solar park is set to become one of Finland's largest, featuring 123,000 solar panels. ABB has joined the project as a key technology provider, delivering automation and ...

Our panels are efficient 410-435 Wp models, and our power output guarantees are among the longest in the industry. All components in our systems represent top-tier quality and are carefully selected to ...

Many Finns are already familiar with solar power: solar panels can be found on the roofs of many homes, summer cottages and workplaces. As technology develops, industrial-scale solar power ...

Solarvance offers solar systems that are climate-adapted, snow-load ready, and smart-grid compatible --tailored to meet Finland's demand for reliability, energy efficiency, and sustainability. We're proud ...

Looking for solar panels, an EV charging station, or a home battery? Get all-in-one energy solutions with a single point of contact - anywhere in Finland.

When solar power is combined with energy storage and smart grid technologies, it improves the flexibility of the electricity grid. Solar panels can be installed in many different ways on ...

Innovations in panel designs and the development of advanced energy storage systems have expanded the applicability of solar power across various sectors. Furthermore, emerging ...
