---

Sumitube is a heat shrink tubing that takes advantage of the shape-memory effect of plastics enhanced by electron beam irradiation.

Adhesive-Lined Heat Shrink Tubing provides insulation and sealing on applications like wire harnesses and splices. This tubing is available in a variety of colors to code components and is RoHS compliant.

Browse our selection of 3M Heat Shrink Tubing, Canusa and Dunar Shrink Tubing, Techflex Sleeving, and label printing products from Kroy, Dymo, and Epson. These and more are available at the most ...

These tubes become smaller in size as they warmed by hot air or a flame. Most often used as insulation material when connecting wires together, these tubes can be used to group wires together, or ...

With thin walls, this tubing shrinks faster than other high-temperature tubing. Made of PTFE, it withstands temperatures up to 500°F and resists abrasion and chemicals. It's also UV resistant, so it ...

It is a solid alternative to taping, molding, or potting. When heated, our RAYCHEM heat sleeves conforms to the size and shape of the substrate beneath, enabling quick and easy installation. Its ...

3M(TM) Heat Shrink Cable Sleeve MDT is a flexible, medium wall tubing that provides abrasion, corrosion and chemical resistance. This sleeve has a 3:1 shrink ratio that offers primary electrical insulation for ...

Mouser offers inventory, pricing, & datasheets for Heat Shrink Tubing & Sleeves.

HFT5000 products are made of very flexible heat-shrinkable fabric material. Heated above 110°C, they shrink to fit snugly and securely around the underlying substrate.

Choose from our selection of flexible heat-shrink tubing, including heat-shrink tubing, chemical-resistant
