What does GCL do?

GCL targets at making PV-generated electricity affordable and inclusive for the public by its constant technology innovations in polysilicon, silicon wafers, cells, modules, system integration and photovoltaic power plants, continuous improvement of its management, regional layout and green energy certification systems.

Who is GCL System Integration Technology?

GCL System Integration Technology strives to be the world's leading integrator of comprehensive energy systems.

What is GCL energy storage?

GCL provides photovoltaic energy storage products, covering energy storage products used in residential, C&I, utility and other industries.

Why should you choose GCL?

GCL Delivers Reliable Performance Over Time ? World-class manufacturer of crystalline silicon management systems ? photovoltaic modules ?Fully automatic facility and world-class technology ?Long term reliability tests ?2×100% EL inspection ensuring defect-free modules Comprehensive System and Product Certifications

Electrical Specification (STC & BNPI) | GCL-NT10/72GDF xxx(xxx=580~595) ... * STC: Irradiance 1000W/m², Cell Temperature 25°C, Air Mass 1.5 *BNPI: Irradiance of front 1000W/A, rear 135W/Ag

GCL has not only ended China's PV industry dilemma of "two ends abroad", but is now playing an important role in promoting the use and the large-scale applications of solar energy in the world.

Large size silicon wafer module can reduce the cost of PV support bracket, combining manifolds, cable, land and so on, thus thinning the LCOE

GCLSI offers a wide variety of high quality products for all PV applications and environments, including 182mm, 210mm bifacial modules and Topcon modules. All products undergo the most rigorous ...

GCL Photovoltaic Primary Board

GCL is a Tier 1 component manufacturer, provides customers with high-quality clean energy one-stop services

GCL provides photovoltaic energy storage products, covering energy storage products used in residential, C&I, utility and other industries.

In 2021, GCL Solar Energy completed the world's first perovskite hundred-megawatt-scale pilot line, taking the lead in the industry by transitioning perovskite module sizes from square centimeters to ...

GCL System Integration Technology strives to be the world's leading integrator of comprehensive energy systems.

World-class manufacturer of crystalline silicon . management systems photovoltaic modules Fully automatic facility and world-class technology Long term reliability tests 2×100% EL inspection ...

GCL branded modules can be used for both off-grid and on-grid applications. With high-yield efficiency and long-term performance they are ideal for utility, commercial or residential roof-top installations. ...
