By leveraging state-of-the-art materials, the Gizmo Solar Cell surpasses conventional solar cell performance. This innovation stems from the latest scientific research, which emphasizes ...

GismoPower[®] has developed a "Mobile Electricity Generating Appliance," or MEGA[®], a portable carport on removable wheels integrating a high-power bifacial PV system and a powerful Class 2 EV ...

This modular solar solution plugs directly into existing outlets, empowering homeowners, renters, and small business owners to harness solar energy without the significant barriers of permitting, custom ...

Since one full system has been completed, our goal for the project is to create a more powerful version of the Gizmo Power system for New College of Florida.

Imagine a major household appliance that, instead of consuming electricity, generates and feeds renewable solar electricity to the house, EV and grid using a 240V plug-in connection through a ...

It offers a Mobile Electricity Generating Appliance (MEGA) portable solar electric vehicle (EV) charging station on removable wheels and integrated a power bifacial PV system and an EV charger, ...

Across America, sunny driveways are abundant yet surprisingly overlooked as potential power generators. Now, a Florida-based startup, Gismo Power, is pioneering a remarkable ...

Across America, sunny driveways are abundant yet surprisingly overlooked as potential power generators. Now, a Florida-based startup, Gismo Power, is pioneering a remarkable innovation: a ...

GismoPower sells a mobile carport with a roof of solar panels and an integrated electric vehicle charger. Unlike rooftop solar, the system doesn't need to be mounted in place but can be rolled onto a ...
