---

The court ruled that construction can restart on a wind farm off the coast of New York State. The Trump administration had ordered work to stop in December.

That's when the government dropped a policy bombshell canceling mandatory energy storage allocations for new renewable projects [7]. Overnight, nearly 50% of planned storage projects ...

But as more energy storage is added, residents in some places are pushing back due to fears that the systems will go up in flames, as a massive facility in California did earlier this year.

All five offshore wind projects halted by the Trump administration in December can resume construction following a federal judge's ruling on Monday that cleared Denmark's Orsted to proceed ...

Along with halting progress of Northland Power's Hall Point BESS addition, the Hanover Town Board voted to enact a six-month moratorium on the approval of any new energy storage ...

The Trump administration is suspending leases for five large-scale offshore wind projects under construction on the East Coast due to what it said were national security risks identified by the ...

Five projects -- or the equivalent of \$6.7 billion of lost investment -- were downsized or cancelled in June alone, all of them in the electric vehicle or battery storage manufacturing space.

Energy storage projects are facing increasing scrutiny from local residents in parts of the U.S. Residents have voiced concerns about fires at energy storage facilities - in particular, lithium ...

New York State has witnessed several communities impose moratoriums on energy storage projects. For example, the Town of Oyster Bay extended its construction moratorium on ...
