How to use electricity from new energy photovoltaic panels

If you have a use for something, you need it or can find something to do with it.

USE definition: to employ for some purpose; put into service; make use of. See examples of use used in a sentence.

Solar PV systems cannot store the electricity they produce unless you also have a battery fitted to your home (which most don't). In order to use the electricity produced for free, you must use it at the time ...

She quickly used up (all of) her inheritance. Don't shower too long and use up (all) the hot water.
