---

Huawei's LUNA2000-215kWh is a next-generation C& I (Commercial & Industrial) hybrid cooling energy storage solution, combining liquid and natural air cooling to maintain maximum efficiency -- even ...

hybrid air- and liquid-cooled C& I energy storage system (ESS), which it highlighted sets a new benchmark for efficiency and performance.

Discover the Huawei LUNA2000-215 Series, a smart and efficient energy storage solution for your home. Enhance your solar energy system with reliable performance.

With hybrid cooling technology, the storage unit is suited to industrial and commercial applications, ensuring the Luna system remains stable even in demanding conditions and helping ...

Summary: Explore how Huawei's energy storage systems revolutionize renewable energy integration across industries. This guide examines technical innovations, real-world applications, and emerging ...

Huawei FusionSolar is proud to introduce the industry's first C& I ESS that uses novel smart air and liquid cooling systems, along with advanced safety, thermal management, and power ...

Huawei has recently introduced the industry's first commercial new smart Hybrid cooling energy storage solution in Europe. It comes with several benefits and offers a circulation efficiency of ...

The ESS mainly consists of lithium battery packs (PACK), Power Converter System (PCS), DC-DC Converter (DCDC) (optional), Rack Control Module (RCM), Liquid Thermal Management System ...

Energy Storage System Products List covers all Smart String ESS products, including LUNA2000, STS-6000K, JUPITER-9000K, Management System and other accessories product series.

# Huawei Air-Cooled Energy Storage Solution

The Huawei LUNA2000-215-Series is an advanced storage solution for commercial and industrial applications. With an impressive capacity of up to 215 kWh and the world's first hybrid cooling ...
