The Kenya Electricity Generating Company is piloting use of a Battery Energy Storage System for uninterrupted renewable power, marking a new frontier in Kenya's green energy strategy.

The BESS project will reduce the impact of intermittency on the grid and store power for use during peak hours. KenGen is working with the World Bank to fast-track implementation of the ...

Nairobi, Tuesday, July 29, 2025: The Kenya Electricity Generating Company PLC (KenGen), has commissioned a new Battery Energy Storage System (BESS) to supply uninterrupted renewable ...

The Kenya Electricity Generating Company (KenGen) will build battery storage for its maiden Sh8.8 billion (EUR60 million) solar power plant at the Seven Forks dams, allowing the firm to ...

The Kenya Electricity Generating Company PLC (KenGen) has announced plans to implement a Battery Energy Storage System (BESS) as part of the Kenya Green and Resilient ...

Meta Description: Discover how Nairobi's largest battery energy storage project transforms Kenya's renewable energy landscape. Explore its capacity, environmental impact, and role in grid stability - ...

KenGen has commissioned its first Battery Energy Storage System (BESS) in Nairobi to power its modular data center, ensuring uninterrupted renewable energy supply.

The Garissa solar plant, located in Garissa county, in the North Eastern part of Kenya, is currently the largest solar project in Kenya and East Africa, with a capacity of 54.7 MW.

Kenya Electricity Generating Company (KenGen) has been selected to carry out a battery storage pilot project, through a programme to increase electricity access funded by the World ...

Kenya s largest battery energy storage project

KenGen's recent launch of a 1.16 megawatt-hour (MWh) Battery Energy Storage System (BESS) in Nairobi came with all the typical trimmings of a milestone event.
