A massive fire broke out at a lithium-ion battery storage facility in Moss Landing, prompting evacuation orders.

In addition to Vistra Energy Corporation, PG& E operates the 182.5-megawatt (MW) Tesla Megapack battery energy storage system (BESS), known as the Elkhorn Battery. Both have been ...

An incident which caused batteries to short has taken offline Phase II of Moss Landing Energy Storage Facility in Monterey County, California, the world's biggest lithium-ion battery energy ...

Officials say the exact cause of the fire is still under investigation but acknowledged that thermal runaway--a chain reaction caused by overheating for which lithium-ion batteries are...

A close call event occurred in October 2021 at the Phase I section of the Moss Landing Energy Storage Facility. This phase consists of a 300 MW/1,200 MWh system. The incident involved overheating of ...

Battery energy storage systems are designed with robust fail-safe mechanisms to ensure continuous operation, even during network disruptions. This comprehensive guide explores precisely ...

Flexible mobile energy storage systems for remote sites and EV charging. Get sustainable, silent, and portable power solutions with Pulsar Industries.

Mobile energy storage systems can be deployed to provide backup power for emergencies or to supplement electric vehicle charging stations during high demand, or used for any ...

On May 15, 2024, Gateway Energy Storage Facility in San Diego, California, experienced a BESS fire with continued flare-ups for seven days following the fire. The facility held about 15,000 ...
