Countries like the USA, Germany, and India have introduced financial assistance programs that reduce the overall cost of solar power systems, making solar inverters more affordable for homeowners and businesses.

Solar Inverter Price Comparison: What to Expect?

How many inverters are sold a year in India?

In India, approximately 1 crore inverters are sold every year in India. Inverters are being sold which have both normal inverters and solar inverters. A normal inverter means that it will be used for charging the battery by using electricity only, whereas a solar inverter has the facility of both electricity and solar charging of the battery.

What is a solar inverter?

It is one of the most critical components of the solar power system as it converts power from the sun into more useful energy and is often referred to as the brain of a solar system. Solar inverters are a crucial part of a solar system since power from the sun cannot be directly used to run electrical appliances.
