The station is located on Isla Socorro--its Spanish name--which is a 132 km²; volcanic island in the Revillagigedo Islands, off Mexico's western coast. A shield volcano that last erupted in 1993, the ...

Handheld walkie-talkies, antennas, and signal repeaters to boost transmissions are all available at a good radio shop or from a Motorola distributor.

OverviewBackgroundProgrammingGeographical list of border blastersSee alsoExternal linksA border blaster is a broadcast station that, though not licensed as an external service, is, in practice, used to target another country. The term "border blaster" is of North American origin, and usually associated with Mexican AM stations whose broadcast areas cover large parts of the United States, and United States border AM stations covering large parts of Canada. Conceptually similar European broadcasting included some pre-World War II broadcasting towards the United Kingdom, "radio p³;riph³;rique
