EPCG, Montenegro's state utility, aims to procure two grid-scale battery storage systems (BESS) totaling 240 MWh in a EUR48 million (\$55.9 million) tender.

Each battery energy storage systems (BESS) will have a power output of 30 MW and a storage capacity of 120 MWh, designed for operation at an output voltage of 35 kV. The batteries will ...

Increasing industry appetite for higher energy density is leading many integrators and manufacturers to offer 20-foot ISO standard container-sized battery storage with 5MWh or more capacity.

Bids must be submitted via the ESJN electronic public procurement platform no later than October 15, 2025, by 10:00 AM. This project is part of EPCG's broader BESS rollout across four ...

This move is intended to increase the efficiency and stability of Montenegro's energy supply while facilitating the integration of renewable energy sources into the grid.

Montenegro's state-owned electric utility, Elektroprivreda Crne Gore (EPCG), announced plans to launch a call for tenders to procure 300 MWh of battery energy storage systems (BESS), as ...

Montenegro invests EUR48M in 240 MWh battery energy storage systems to enhance grid stability and accelerate its renewable energy transition.

The new Belize Energy Resilience and Sustainability Project will deploy state-of-the-art battery energy storage systems across four strategic locations in the country, marking a significant step forward in ...

EPCG's latest project aims to address these gaps, positioning battery storage as a cornerstone of grid modernization and a critical tool for achieving national sustainability targets.

Montenegro Mobile Energy Storage Container 5MWh Agreement

Elektroprivreda Crne Gore, owned by the Government of Montenegro, has held discussions with several companies and financiers from the region, Europe, and the world about its ...
