What is Nor Cal Solar Construction?

Nor Cal Solar Construction is a locally owned and operated company with a quarter century in the solar power business. When you choose them as your partner for solar energy, you get the benefits of their long-term commitment to customized solar energy solutions for homes and businesses.

Does Nor Cal Solar install roofs?

Yes, Nor Cal Solar installs roofs and unlike other solar companies, they renovate and install all types. Nor Cal Solar proudly serves Sonoma, Marin & Napa Counties. Your Nor Cal Solar system will use proven technologies to convert sunlight into electricity.

Why should you choose Nor Cal Solar Construction?

Choosing Nor Cal Solar Construction as your partner for solar energy comes with benefits such as an increase in home value at no extra cost, due to California law (CA RTC, Section 73). With a quarter century in the solar power business, you can depend on Nor Cal Solar Construction.

How does a Nor Cal Solar System work?

A Nor Cal Solar system converts sunlight into electricity using proven technologies. Your residential or commercial PV solar system ties in with the existing grid system, ensuring a dependable source of power. When your system produces a surplus, the extra energy goes into the grid.

Solar photovoltaic (PV) technology has evolved significantly over the years. Understanding the differences between N-type, PERC, and Thin-film solar panels helps consumers, ...
