Does a capital subsidy affect investment in PV in Sweden?

Using data from all applications to the capital subsidy program for PV in Sweden between 2009 and 2021, we analyse the impact of the subsidy level on investments over time. Our analysis shows that the subsidy has had a positively significant impact for households and private companies as investor groups.

Do direct subsidies affect the deployment of solar in Sweden?

Researchers from Chalmers University of Technology and PV advisory firm Becquerel Sweden AB have investigated the impact of direct subsidies on the deployment of solar in Sweden. They have urged policymakers to adapt future programs to different investor characteristics.

How does subsidy affect investment in solar photovoltaics (PV)?

Subsidy levels had a notable impact on households and companies. Corporate investment links significantly to interest rates. Over the past decade, different economic incentives have been created to increase investments in solar photovoltaics (PV).

Which Nordic countries are embracing solar PV technology?

During the recent surge in solar PV installations, the Nordic countries - Sweden, Norway, Finland, and Denmark - have increasingly embraced solar PV technology, defying their northern geographical challenges.

The strategy is a part of the Danish ambition to launch its initiatives on green power and heating from sustainable sources as relevant actors in the solar panel market has requested the ...

Discover which European countries offer the best solar incentives. Compare subsidies, ROI, permitting ease, and forecasts through 2025.

Maximize your savings with the latest solar panel subsidies. We explain net-metering and grants across Europe to help you go green for less.

The scientists presented their findings in the study " The impact of solar PV subsidies on investment over time - the case of Sweden," published in Energy Economics.

Additionally, investment subsidies are available for renewable energy projects, including solar PV installations, further fostering the sector's growth (Finnish Ministry of Economic Affairs and ...

The solar roof boom, exemplified by Anna Eriksson's off-grid haven and communities like Hurdal, is transforming Scandinavia into a region of domestic power plants. From ancient solar heat ...

The Ministry of Finance on March 18, 2025, published a proposal (Swedish) that would reduce tax subsidies for installing solar cells. The proposal would reduce the tax credit for solar ...

Scoring System This country profile highlights the good and the bad policies and practices of solar rooftop PV development within Sweden. It examines and scores six key areas: ...

We are a Danish solar energy company headquartered in Copenhagen. We develop, construct, and operate utility-scale solar parks across Europe on our mission to make everyone benefit from solar ...

Using data from all applications to the capital subsidy program for PV in Sweden between 2009 and 2021, we analyse the impact of the subsidy level on investments over time. Our analysis ...
