What is the global PV inverter market share?

Global PV inverter shipments grew by 56% to 536 gigawatts alternating current (GWac) in 2023, reflecting a strong year for the broader solar industry. The top 10 global PV inverter vendors accounted for 81% of the market, according to Wood Mackenzie's 'Global solar inverter and module-level power electronics market share 2024' report.

How big is the solar PV inverter market?

We're here to help answer any questions about our products and services. The solar PV inverter market reached USD 8.45 billion in 2024 & expected to grow at 5.0% CAGR between 2025 and 2034, to reach USD 13.13 billion by 2034.

What drives the PV inverter market?

The PV inverter market is poised to grow significantly over the next five years, driven by declining prices of solar panels and supportive government policies and regulations around the world. Major drivers for the market include countries mandating renewable energy generation targets and incentives for rooftop solar installations.

What was the market size of PV inverter in 2024?

The market size for PV inverter was valued at USD 34.6 billion in 2024 and is projected to reach USD 90 billion by 2034, growing at a CAGR of 9.5% during the forecast period. What was the market share of the three-phase segment in 2024?

The PV inverter market has grown rapidly in recent years to achieve record global revenue of \$21 billion in 2023. PV inverters convert DC electricity produced by solar modules into AC ...

Solar PV Modules and Inverters Market Size, Share and Trends Analysis by Technology, Installed Capacity, Generation, Key Players and Forecast to 2030 Powered by All the vital news, ...

The global PV inverter market was valued at USD 34.6 billion in 2024 and is estimated to grow at a CAGR of 9.5% from 2025 to 2034.

In 2022, Huawei had the largest PV inverter market shipments worldwide, accounting for some 29 percent of

PV inverter share of modules

The top 10 global PV inverter vendors accounted for 81% of the market, according to Wood Mackenzie's "Global solar inverter and module-level power electronics market share 2024" ...

The solar PV inverter market reached USD 8.87 Billion in 2025 & expected to grow at 5.00% CAGR between 2026 and 2035, to reach USD 14.45 Billion by 2035.

PV Inverter Market size was valued at US\$ 15.33 billion by 2025 and is projected to grow from US\$ 42.54 billion in 2032 with CAGR of 15.7%.

The different inverter types available in the market are central inverters, string inverters, micro inverters, smart inverters and battery-based inverters. Central inverters are centrally connected ...

The Solar PV Inverters Market worth USD 15.24 billion in 2026 is growing at a CAGR of 6.79% to reach USD 21.16 billion by 2031. Huawei Technologies Co., Ltd., Sungrow Power Supply ...

Today, China's share in all the manufacturing stages of solar panels (such as polysilicon, ingots, wafers, cells and modules) exceeds 80%. This is more than double China's share of global ...
