Our History: Our factory established in 2008 by one of our company founder Mr. Xu, who was as leader of china roll forming technology research team in SINOMRCH more than 10 years.

A Solar Bracket Punching and Roll Forming Automatic Production Line provides a comprehensive, high-efficiency solution for producing solar PV mounting brackets.

Xinhonghua produces cold bending roll forming equipment such as photovoltaic bracket machines, C/Z purlin equipment, roof panel and floor deck forming systems.

Central to the functionality of the fully automated photovoltaic bracket production line are our powerful three-in-one decoiler straightener feeder machines, seamlessly integrated with a ...

Photovoltaic/PV Bracket Rollformer The roll forming machine for PV Bracket (the strut channel roll forming line) is to make the brackets of C shape with punching holes used for photovoltaic ...

The Photovoltaic (PV) Bracket Production Line is a fully automated solution designed for the mass production of solar mounting structures (solar struts/channels).

The surface of carbon steel is hot-dip galvanized and will not rust for 30 years of outdoor use. The characteristics of solar photovoltaic bracket system are no welding, no drilling, 100% adjustable and ...

Discover the advanced Metal Solar Bracket Production Equipment by Howann, offering automated, efficient steel sheet roll forming for high-quality decks.

The solar photovoltaic bracket rolling forming machine is a fully automatic production line for producing solar photovoltaic bracket support rods. This bracket is designed as a special bracket for placing, ...

Photovoltaic bracket punching mold factory

Feeding, punching, molding--all done in one go! Born for the PV era. Dear manufacturing pioneer, are you seeking breakthroughs in the production efficiency and cost control of PV brackets?
