-----  
What are the different types of racking for photovoltaic (PV) systems?

The two most popular types of racking for photovoltaic (PV) systems are ground and roof mounts. Ground mounts are typically used in large-scale solar projects and can be used with tilt angles that range from 0 to 40 degrees. The angle is important as it will determine the amount of sunlight your solar panels will receive over the course of a year.

Are tamarack solar roof mount kits UPS-able?

Tamarack Solar offers economical and robust mounting kits that are UPS-able. They also produce ground mounts, top-of-pole mounts, and side-of-pole mounts. Their roof mount kits consist of:

What clamps & brackets are available for metal roof mounting?
