A new \$70 million solar and storage microgrid project in St Kitts and Nevis will include a 35.7MW solar farm and a 14.8MW lithium-ion battery energy storage system with a capacity of 45.5MWh, providing ...

St. Kitts Microgrid St Kitts & Nevis Island - 2021 Largest Caribbean Solar + Storage installation to supply the St Kitts-Nevis with a 20-year Power Purchasing Agreement

Upon completion, the St. Kitts project will be the largest solar generation and energy storage system in the Caribbean and a model for other island nations worldwide.

Let Solar Island Energy help your Saint Kitts and Nevis business save significantly on energy bills, have reliable, self-contained utilities, improve its long-term value, and be less dependent on fossil. [pdf]

The Caribbean Renewable Energy Forum (CREF) awarded its 2023 prize for "Best Microgrid" to Solar Island Energy and the Eastern Caribbean Central Bank (ECCB) for a project on ...

This turbine, with its unique storm protection feature, is designed to withstand the severe weather conditions typical of hurricane-prone regions like Saint Kitts and Nevis. Construction of the solar + ...

The pilot project will install and integrate a Vertical Axis Wind Turbine, at the SCASPA Sea Port microgrid with aim to reduce 46% of the port's GHG emissions. The technology encompasses a ...

Basseterre, St. Kitts, April 25, 2018 (SKNIS): The Government of St. Kitts and Nevis is launching a new committee to review and improve the lives and livelihoods of the Hispanic community residing in the ...

SYG TECH wind turbine technology has been developed with this intention in mind. The simple solution we present in this project makes wind energy applicable to microgrid power generation in many ...

In this simulation, microgrid consists of three VSCs which are connected to different loads. Each VSC consists of a droop controller along with outer voltage controller and inner current controller.
