-----  
How much does it cost to own an EV?

Your local electricity rate will also affect the cost of EV ownership. The cost of electricity varies widely, but it's usually expressed in dollars per kilowatt-hour (kWh); the national average as of March 2025 was \$0.17 per kilowatt-hour. (Hawaii had the most expensive rate, at \$0.41, and North Dakota the least at \$0.11.)

How much does an EV cost in 2025?

According to Kelly Blue Book data from June 2025, the average transaction price of a new EV was \$57,734, while the average price for a gas-powered vehicle was \$48,799--a nearly \$9000 difference. But MSRP and purchase price aren't the whole picture. State and federal EV tax incentives can reduce the real-world cost of an EV significantly.

How much EV rebates does Kia offer?

The act provides up to \$7,500 in rebates to EV buyers. Vehicle manufacturers also offer incentives that reduce the cost of EV ownership. For example, Kia offers a cash rebate of \$3,750 for new Niro EV purchases.

What is the cheapest EV?

The cheapest EV you can buy today is the Nissan Leaf, by a fairly wide margin, though many automakers are introducing lower-end, more affordable trims in their EV lineups. Check out our guide to the cheapest EVs to learn more. [How Do You Know What EV Is the Best?](#)
