---

Based on the big data analysis of over 500 sets of wind turbines, the performance and energy production efficiency are comprehensively improved. Second generation of SL3000 series of wind ...

Explore Sinovel-compatible wind turbines from Chinese manufacturers with power outputs from 100W to 5MW. Compare technical specifications, pricing by segment (residential to utility-scale), on-time ...

Sinovel Northwest Base resumed production with new technology, new product and new service Sinovel Cooperates With Mita-Teknik to Co-Develop Innovative Wind Turbine Control Systems

SL1500 series wind turbine adopts mature and reliable double-fed power generation technology with rotor diameter 70/77/82/90/93m and hub height 65/70/80/100m which can meet requirements of ...

This paper introduces a new way to plan and manage the use of wind and solar power, along with traditional thermal power (TP) and batteries, to get the most ...

SINOVEL WIND GROUP CO., LTD. is principally engaged in the development, research, manufacture and distribution of large-scale wind electric power generator sets.

There are over 8000 sets of SL1500 series turbines installed since the establishment of first Chinese MW level wind farm in 2006. This series of wind turbine has obtained certificates of GL, T&#252;V S&#252;D ...

Sinovel has been growing by leaps and bounds. With the new installed wind power capacity of 1,403 MW in 2008, it ranked No.1 in China and No.7 in the world. In 2009 Sinovel had the new installed ...

The SDWPF dataset not only provides information on power generation and wind speed but also details the spatial distribution of the wind turbines and dynamic contextual ...
