With a fully integrated solar inverter, Powerwall can efficiently store solar energy and convert it into electricity to power your home. This means you can capture more of the solar energy your system is ...

In a recent interview, Elon Musk says that solar is the only logical energy source to build out, and it logically dwarfs all other sources.

Space-based solar could power AI more efficiently than on Earth, with full-scale deployment possible in two to three years, Elon Musk said last week in Davos, Switzerland. ...

In Tesla's annual financial filing, the company said that last year it sold \$430 million worth of its energy storage products to xAI, Elon Musk's AI startup.

Tesla Energy 2025: Solar Roof V4, Powerwall 3, and Megapack installations worldwide

The Megapack, which is an advanced battery system designed for large-scale energy projects, can store more than 3,900 kilowatt-hours of electricity in a single unit. This capacity can ...

Elon Musk is bringing the same revolutionary thinking that helped him upend the car industry to the data center business with promises this week to put up to a million new satellites in ...

The Megafactory will improve the capacity to produce and deploy large-scale energy storage solutions. This is essential to address the intermittency of renewable energy sources like ...

Solar energy depends heavily on weather conditions and is subject to day-night cycles, leading to intermittency issues--which pose significant challenges for consistent energy supply. ...

Tesla sets battery storage deployment record in Q4 as EV sales slump Tesla CEO Elon Musk said "energy will have very high growth for as far into the future as we can imagine."
