How much does a solar hot water system cost?

Active solar hot water system prices are \$2,300 to \$6,000 for the system alone. Active systems use a pump to circulate liquid from the solar collectors to a storage tank inside the home. Most active systems have a backup heating element to provide hot water on cloudy days.

How much does a solar pool heater cost?

A solar pool heating system uses the pool's existing pump to move water through roof-mounted collectors, where the sun's energy warms the water before returning it to the pool. The best solar water heater brands like Rheem, Duda Diesel, and SunEarth cost \$1,400 to \$6,700, depending on the system size and whether it's active or passive.

How much does a solar water heater collector cost?

Solar thermal collectors cost \$800 to \$1,500 per panel depending on size, or \$1,600 to \$2,600 for enough collectors to supply hot water to a family of four. Solar water heater collectors are typically roof-mounted and come in these models:

How much does a solar water tank cost?

Water tanks for solar heating systems cost between \$800 and \$2,800. They're available as single- or double-walled units, and some have a heat exchanger and/or an auxiliary heater backup. Prices vary based on size, wall type, and additional features.
