The two parties will jointly invest 15 million US dollars to construct a battery energy storage system project in Thailand. According to the agreement, the two sides will establish a ...

Chiang Mai, Thailand - September 5, 2025 - Wenergy, a leader in energy storage solutions, is proud to announce the successful launch of its Battery Energy Storage System (BESS) project in Chiang Mai, ...

15 December 2025: Technip Energies (PARIS:TE) has been awarded a detailed engineering contract for PTTEP's Arthit Carbon Capture and Storage (CCS) facilities project in the Gulf of Thailand by ...

Thailand's energy storage sector leads in 2025 due to strategic government policies, abundant solar resources, industrial ecosystem integration, and diversified application ...

Projects like Bangkok Solar City and EGAT's floating solar at Sirindhorn and Ubol Ratana make the shift visible. Smarter grids, better forecasts, and storage improve reliability, while public ...

Notably, in Q1 2025, the Electricity Generating Authority of Thailand (EGAT) began construction on the country's largest battery energy storage system (BESS) in Lopburi Province--a ...

The increased solar and energy storage targets could sustain the forecasted electricity demand increase from data centres and EV charging in the coming years.

Toyota, together with its partners, launched the first project to develop and test the use of EV batteries as an energy storage system in Japan in May 2023 and has expanded its collaboration ...

Thailand intends to source nearly 35,000 MW of new electricity from renewables as it looks to reach carbon neutrality and net zero commitments. However, the deployment of Battery ...

Increasing energy storage capacity will be critical for integrating higher volume of renewables specifically

Thailand 2025 Energy Storage Project

solar in Thailand"s power system. In April 2023, Thailand awarded project rights for 1GW of solar ...
