The largest of its kind in China, the energy farm is officially known as the Rudong offshore photovoltaic-hydrogen energy storage project.

Q& A for speakers of other languages learning English

The solar-to-hydrogen plant is the largest constructed to date, and produces about half a kilogram of hydrogen in 8 hours, which amounts to a little over 2 kilowatts of equivalent output power.

Sinopec, China's leading hydrogen producer, has commissioned the world's largest solar-to-hydrogen project in Xinjiang--a \$417 million initiative that combines a 300-MW solar power plant ...

What about the second pie chart? In the second pie chart the largest portion is less than 50%. Can I still consider the group "c" as majority in it? Based on the Cambridge Dictionary it seems ...

If it is the largest, it may not be the majority if there are three or more parts. If something is 40%, while two other things are 30% apiece, it's the largest, but it does not constitute a majority, ...

Element Resources is investing \$1.85 billion in what is planned to be North America's largest hydrogen production facility. Construction on the Lancaster Clean Energy Center (LCEC), ...

The project, led by Sinopec's New Star Company, easily qualifies to be the world's largest solar-to-hydrogen initiative and the first of its kind in China.

China's Sinopec has switched on the world's largest solar-to-hydrogen project in Xinjiang, while India has unveiled a new plan to incentivize green hydrogen and electrolyzer production.

If you're loosely grouping batteries on say a five-point scale, "from smaller to larger" conveys this rather

The largest solar power generation hydrogen production

better than "from smallest to largest", which implies an accurate ordering. On ...

The study examines hydrogen production from both fossil fuels and renewable sources, emphasizing the technologies involved and the critical role of solar thermal collectors.

When referring to a list of number is largest or biggest correct? For example, I want to find the biggest number in an array. Or should it be the largest number. Finally, would either biggest or
