Who makes outdoor Telecom cabinets?

Since 1989, we've manufactured outdoor telecom cabinets in America's Heartland, providing telecommunications companies, utilities, and network operators with BABA-compliant solutions that protect critical equipment from the harshest environmental conditions.

What is an outdoor telecom enclosure?

Our outdoor telecom enclosures support a wide range of telecommunications and infrastructure needs: Fiber Optic Networks: From compact fiber distribution units to high-capacity data center enclosures like the AP-Data with six slack frames, our cabinets manage dark-fiber volumes with organized cable management and secure slack storage.

What is a telecommunication cabinet?

The cabinet is an ideal solution for physical connections of outdoor telecommunication equipment, transmission equipment, power equipment, monitoring equipment, lithium batteries and other supporting equipment. Both active telecom equipment and passive telecom equipment can be accommodated inside the cabinet.

What types of equipment can be accommodated in a Datacom cabinet?

Both active telecom equipment and passive telecom equipment can be accommodated inside the cabinet. Cabinets are available with integrated thermal management using air conditioner to control internal temperatures to protect sensitive equipment. DATACOM offers IP55/IP66 rated floor standing equipment Cabinets.
