Rated up to 350 Wp, the REC TwinPeak 2S 72 panel sets a new world record in power output for 72-cell multicrystalline panels, thus competing strongly with products of similar size using monocrystalline ...

REC, the world's most trusted brand for solar panels, announces the launch of the new REC TwinPeak 2 Series solar panel. Rated up to 295 Wp, the REC TwinPeak 2 takes the power output of 60-cell ...

DESIGNED TO MAXIMIZE POWER AND PERFORMANCE OVER GENERATIONS. With this technology customer can boost their energy yield by generating the same power with fewer modules, ...

Solar modules with REC TwinPeak 2 technologies have a unique "twin" design, which enables them to generate electricity even when they are partially shaded. Over time, you get a higher yield from your ...

Rated up to 350 Wp, the REC TwinPeak 2S 72 panel sets a new world record in power output for 72-cell multicrystalline panels, thus competing strongly with products of similar size using ...

Twin crystal solar panels, often referred to as bifacial or dual-glass panels, utilize two layers of solar cells arranged to maximize sunlight capture effectively.

The technology behind the patented REC Twin Design is a revolutionary advancement in solar panel technology that delivers a power boost of up to 20 Wp per panel.

It now includes over 29 most efficient (best) solar panels in the market. Here's the full list with links to the product data sheets.

The REC TwinPeak 2 takes the power output of 72-cell monocrystalline panels to groundbreaking new heights with it's twin panel design. This reliable solar panel is ideal for commercial PV installations ...
