Ready to Power Up? Solar battery storage UK adoption is accelerating for good reason. The combination of reduced energy costs, income from grid services, and genuine energy ...

Three new UK battery energy storage systems (BESS) and a 150 MW capacity solar farm have won government approval. The Scottish government has given Kona Energy the green light for ...

RWE, the UK's largest power generator, has received official planning consent for its 180 MW Byers Gill Solar and Battery Storage Project, located between Stockton and Darlington in North ...

A record number of renewable energy projects were given the go-ahead in Great Britain in 2025, after planning approvals almost doubled year on year, according to an analysis.

Recurrent Energy CEO Ismael Guerrero confirmed the company secured a DCO for the 800 MW solar and battery storage project, positioning it among the UK's most significant solar and ...

German energy group RWE AG (ETR:RWE) has secured planning permission for its Byers Gill solar plus storage project in the UK, marking the company's largest consented co-located ...

Orsted and UK solar developer PS Renewables have applied for approval to construct a 740 MW solar and battery energy storage system (BESS) in Nottinghamshire, England.

"It's great to have supported Cero Generation with the financing of their latest portfolio of co-located solar and BESS projects," said Sylvan Jonker, Head of Renewables & Power NL at ING.

These projects include a variety of storage methods such as Li-Ion batteries, flow batteries and pumped hydro storage, which releases water stored at height to turn turbines, creating...

The pipeline of grid-scale BESS projects with planning approval in the UK has now reached

UK Energy Storage solar Project

58,270MW/121,645MWh in capacity. That's according to the latest data from Solar Media ...
