Enter the heavy wind cannon prototype developed by Vortex Energy Solutions in 2023. Unlike their spinning ancestors, these installations resemble industrial-grade air compressors turned inside out.

Cannon Afros, a company of Cannon Group and market leader in high-performance dosing and mixing equipment, has developed an innovative direct infusion system for faster processing of epoxy and ...

Wind Energy Wind power or wind energy is a form of renewable energy that harnesses the power of the wind to generate electricity. It involves using wind turbines to convert the turning ...

Several major wind turbine manufacturers have already indicated their interest in our innovative system in response to their need for a significant increase in the volumes of chemicals ...

Below is the list of the wind farms developed by Cannon Power Corp. (wind farms listed in the database).

The Windy Point/Windy Flats project, located in Goldendale, Washington, is the largest wind farm in Washington State. The 90 square miles (230 km) wind farm spans 26 miles (42 km) along the Columbia River ridgeline and has a capacity of 500 megawatts (MW). Construction of 400 of the 500 MW was completed by the end of 2009. Cannon Pow...

Cannon's direct infusion process provides an innovative solution for wind turbine blades. Power generated by wind turbines accounts for just over 24% of the world's renewable energy generation ...

A company of Cannon Group, Cannon Afros has developed an innovative direct infusion system for faster processing of epoxy and polyurethane (PU) resin systems for the manufacturing of ...

City: Bremer Commissioning: 1 turbine: EWT Directwind 900/54 (power 900 kW, diameter 54 m) Hub height: Total nominal power: 900 kW Operational Onshore wind farm ...

Wind turbine with wind cannon

Cannon Power Group was selected to render engineering procurement construction services for the wind power project. Siemens Gamesa Renewable Energy was selected as the ...
